DEAN'S MESSAGE

A college yearbook is a unit of use package of memories! The Terra Mariae will be something that you will turn to in years to come whenever you need to remind yourself of the good old days or what it was like in the world of pharmacy before automated dispensing machines took over and computers rules the world. You may well use the Terra Mariae some day to convince your child or your grandchild that you really didn't go to school in a log cabin or study by candlelight in front of a fireplace.

But today the Terra Mariae is a book about today — reflections of life in the School of Pharmacy over the last twelve months. And, as always, your editorial staff, led by Editor Yuni Cha has done a fine job in assembling those reflections. Catching the high points and the low points of the school year, those historical moments and those not quite so historical, so that when you refer to this book on many occasions over the years to come, you will indeed get the full measure of what it was like to be in the School of Pharmacy in 1992.

As usual, change occured in the profession of pharmacy in 1992, some of it visible, some hidden to be later clarified by hindsight. Assertive pharmacists are making their mark on health care, helping their patients and their physician colleagues to continually improve the quality of drug therapy. It is an exciting and challenging time for graduates to leave their successes in Pharmacy Hall and move on to successes in the profession.

CELEBRATION

Class of 1992 History:

Our class started in August, 1989 on a hot Baltimore day of around 98.6 degrees (don't forget your sig figs!!) & we moved through orientation rather quickly. Class elections voted in an "interim" president, who did not last very long. Hope Campbell took over the airwaves ("Students! Attention Students!") and mediated between the class and professors. Lynette Bradley was voted in to be our Senior Class President as Hope moved onto being a part of the PharmD Class of 1993. During this time, pharmacy school made many changes for which we portrayed well-fed lab rats . . . Biochemistry, ABID, Nutrition, "Advanced" Pharmaceutical Sciences (What was that anyway?), and Management lectures (?!?). We survived and now we are more readily prepared to face the world of pharmacy. How do you sum up the past three years we have all spent together . . . you can't.

CLASS ADVISOR

Dr. Karl-Heinz Rosler

From one who is very proud of the achievements of the class of 1992 the best wishes for the future. May you find fulfillment and prosperity in the profession you chose and be a respected providers of services and advice to a public at times when it is beset with ailments and disease.

THE MEMORIES . . .

But in the real world . . .

Who us . . . crowded?

Another bake sale?!?

Let's review the genesis of addiction . .

There will be another quiz tomorrow.

Where is our next class and when does it start?

You are going to have to do a group project. . .

Where is Fred reading from?

Did you buy your yearbook yet?

You should all get 100% on that exam.

This won't hurt a bit.

Life beyond pharmacy school?!?

If money can't cure it, you have a serious problem. . .
— Fred Abramson, Assistant Professor

2.0 AND GO !!!

Will you get me a hand-out?

BLEEDING !!!! — Group 2 1991 ABID Family Feud Champions

It has been a great three years! Please keep in touch. — Dr. Robert Beardsley, Associate Dean for Student Affairs and Administration

We are trying to save paper, so we've reduced this a bit . . .

Although I went to pharmacy school before some of you were born, my years as a pharmacy student represent one the most important segments of my life. I hope that your stay here will mean as much to you.
— Dr. Patrick Callery, Associate Professor

I know we only have a few minutes left, but we really need to go over this stuff.

STOP THE DRUG !!!

I will have the handout for today's lecture ready for you tomorrow.

THAT WAS THEN . . .

. . . THIS IS NOW

"Recently I heard some expert on a radio talk show say that 'successful people fail much more frequently than unsuccessful people.' Although this statement sound absurd, it is really true. No person satisfied with the status quo becomes successful. Positive change only occurs when someone is willing to take a risk: conceive a better way, invent a new technology, solve a problem, promote better health, alter the course of a disease.

Failure is one of the consequences of risk. As an indiviual you must have faith in your abilities, be willing to take risks, be willing to fail. No change will occur in our profession, or our society, that disenfranchises those with the desire to adapt and the ability to learn."

To the Class of 1992
From Dr. R. Gary Hollenbeck, Associate Dean for Academic Programs

HEY, HEY . .

Hey Nelson — the grades up yet?

The plastic corks are so much easier.

Phyllis! You missed the final!

GOODBYE!!!

See you in May!!

Was it really *that* bad?!?

Gateway of Opportunity

Welcome to the Yearbook Ad's Gateway of Opportunity. Need a job? Ask one of our advertisers. Looking for entertainment? One advertiser has fun for kids of all ages.

Yearbook Ads are more than just a tax break. They're a good way to target a special audience (YOU) for life. Our advertisers know that you are important to them. Patronize them. Find out what these advertisers can offer to you. Tell them that you saw their ad in the yearbook. It will make them feel good (and it won't hurt us, either). You never know what could happen when you patronize a yearbook ad. It could be the opportunity of a lifetime.

This book is supported by a generous grant from the Student Government Alliance.

Congratulations to the Class of 1992

Pharmacy Practice and Administrative Sciences

Each day in R School brought some type of expression in each of us. Whether it was of joy from our friends or whether it was of disgust from a lecture, each day for each individual it was an unique & diversified melee of expressions. Hopefully, these expressions were captured, and may bring on new (or the same) expressions as they are reflected upon.

The *Terra Mariae* was conducted by the editor but the final piece was ultimately played by the harmony and talents of many people. My utmost gratitude cannot be fairly expressed to all those that tolerated my demands and to those that helped make the 1992 *Terra Mariae* possible:

JACQUELYN LUCY, for shouldering the responsibilities as the advisor; **DeAnna White**, for much! especially all the minor/major 'details' of a yearbook; Todd Stephens, the financial aspects; **Tracy Robinson, as vice editor**; Eric Speaks, for all the photographs that I demanded!; **the** *Terra Mariae* **staff** (please see page 2), for **many** pages and photos, and patience with me; Don Carroll/Taylor Publishing, for being so friendly and so helpful; my family, for tolerating the yearbook litter!; faculty & staff, for all my "little favors"; and my friends (you know who you are!), for sharing many of the expressions/memories.

This *Terra Mariae* has tried its **best** to be an equal opportunity yearbook. Meaning, hopefully most everyone was caught in the opportunity to express themselves in these pages.

Finally, remember to continue expressing yourself each day. A yearbook can only freeze a minute part and a finite number of people from the **past** to share with others. Each of you have a unique/special past, present, & future to not only be a yearbook to yourself but most especially — to others.

Gratefully,

Yuni Cha
